

# IT Hardware Security Solutions for Industry and Logistics

Compatible

At Compulocks we understand that the industrial working environment can be very demanding, and requires special attention when designing suitable products. Compulocks IT hardware security and display solutions for industry and logistics are robust and durable, to fit tough operating conditions while enabling comfortable and easy use.

Our solutions come as a complete tablet display and security bundle or may be customized by our product experts to suit our customers' precise requirements.

Smart. Secure. Essential

NEW Product

# VESA Rail Mount

Compatible

For VESA mountable enclosures and monitors up to 15" screen size.

Use new mounting locations with the VESA Universal Rail Mount for all rails and poles upto 1.50"Ø. Fixed with tamper-proof screws, the mount allows screens to be set Portrait or Landscape and offers both flip and swivel for easy interactivity in the workplace.

Smart. Secure. Essential

# VESA Rail Mount Available with

## Space Rail Mount

Compatible   Microsoft Surface  SAMSUNG Galaxy Tab

The high-grade Aluminum Space Enclosure features rounded edges and open corners for improved ventilation and access to buttons and inputs with a Quick Lock/Unlock Keyed lock. The Enclosure design enables continuous charging and for peripheral cables to be plugged in with cable management through the VESA Rail Mount. The Space Enclosure can be mounted Portrait or Landscape and the VESA Rail Mount provides screen flip and swivel.

## Cling Rail Mount

Compatible   Microsoft Surface  SAMSUNG Galaxy Tab

The Cling Mount secures all iPad and most tablets 7"-13" screen size with quick and easy setup. Tablets are secured using a clamp with tamper proof screws and cable management. The Cling Mount rotates between Portrait and Landscape mode to create a dynamic solution with the VESA Rail Mount's swivel and flip.

## Magnetix Rail Mount

Compatible   Microsoft Surface  SAMSUNG Galaxy Tab

The Magnetix Mount is an interactive display solution that enables users to lift and hold the tablet, while it is secured to the base with a cable lock. When on the VESA Rail Mount, screens up to 15" can be used Portrait or Landscape, with flip and swivel for ease of use and comfortable interaction for entertainment and self-service.

# Info Point

- Cutouts for buttons, ports, and cameras
- Rubberized for a firm grip

## SHIELD – Tempered Glass Screen Protector

- Shatter-proof and scratch-resistant
- Maintains touchscreen sensitivity
- Crystal clear image resolution
- Nano-coating to repel finger marks and dust

# Case Study

## The Challenge

A National rescue organization that provides emergency pre-hospital medical care and ambulances, required a solution that would allow them to dock and charge tablets in their vehicles.

The solution had to be shock-resistant and durable, and be easily docked and released, as the teams operate under pressure and in high-speed driving conditions.

## The Solution – Active rugged

Compulocks designed a custom hybrid solution made of light-weight aluminium and a rubber and silicone body, to the exact measurements of the tablet. This allowed for a durable solution, suitable for emergency situations. The case has an ergonomically designed Hand Grip with an adjustable strap for easy grip and comfortable hold. It has a 360-degree tablet rotation that easily accommodates both portrait

and landscape viewing modes. Complete with a fast-release clip and magnetic charging cable, for easy and quick charging. A shock-proof bracket and holder complete the solution, alongside a docking head and tray for a Bluetooth keyboard. This innovative solution by Compulocks has since been deployed on a fleet of over 1,000 ambulances.
