BATTERY POWER

**QIKPAC**  
200Wh lithium-ion battery with TUF USB charging

■ Black Fascia

**QIKPAC**  
200Wh lithium-ion battery with TUF USB charging

□ White Fascia

**QIKPAC CARRY**  
Portable 200Wh li-ion battery with TUF USB charging

■ Black with grey handle

**QIKPAC**  
Portable 200Wh li-ion battery with TUF USB charging

□ White with grey handle

**QIKPAC BASE**  
Charge up to three QIKPACs or QIKPAC CARRY batteries at once

■ Black

**QIKPAC BASE**  
Charge up to three QIKPACs or QIKPAC CARRY batteries at once

□ White

**QIKDOC**  
A QIKFIT charging shoe made for easy mounting in desks

■ Black

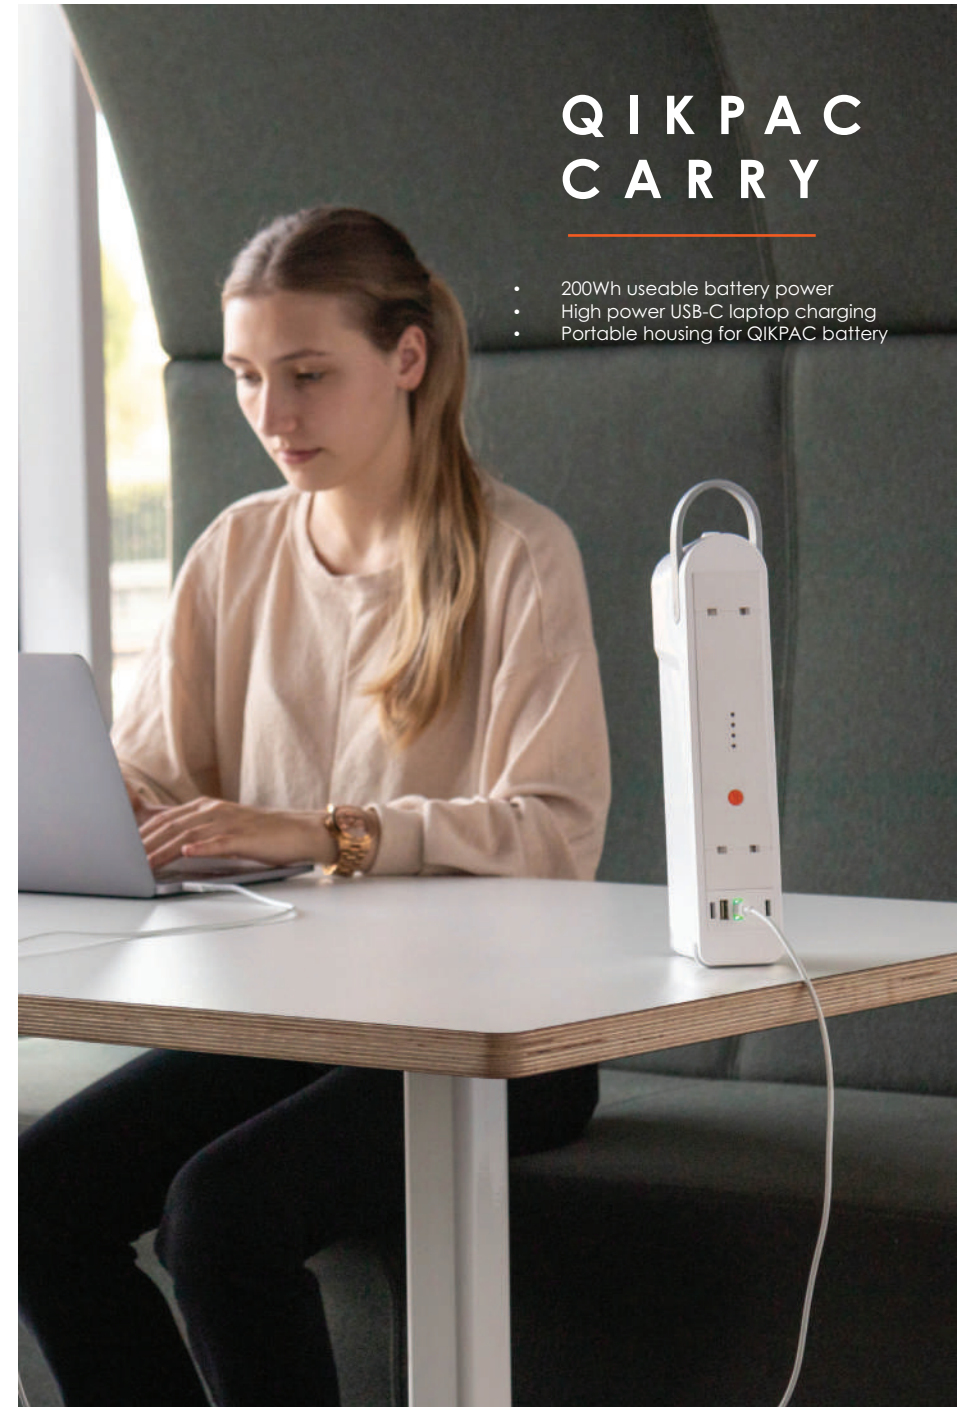

**QIKDOC**  
A QIKFIT charging shoe made for easy mounting in desks

□ White

**QIKFIT SHOE**  
The charging shoe without the QIKDOC for custom builds

□ White  
■ Black

# QIKPAC CARRY

- 200Wh useable battery power
- High power USB-C laptop charging
- Portable housing for QIKPAC battery

ON DESK

**POLAR<sup>ICE</sup>**  
Two on-desk Power sockets & USB charging

☐ White with grey sockets

**BLACK<sup>ICE</sup>**  
Two on-desk Power sockets & USB charging

■ Black with black sockets

**PANDA**  
On-desk Power & USB charging

☐ White body with black sockets and endcaps

**PANDA**  
On-desk Power & USB charging

☐ White body and endcaps with grey sockets

**POCO**  
Two on-desk Power sockets & USB charging

■ Black body and sockets  
☐ Aluminium body with grey sockets and endcaps

**PEARL**  
Two on-desk Power sockets & USB charging

☐ White throughout

**PACE**  
On-desk Power sockets & High Power USB charging

■ Black throughout

**PACE**  
On-desk Power sockets & High Power USB charging

☐ White throughout

## **P A N D A**

- choice of international sockets, data & AV
- optional TUF 25W / TUF-R HP USB charging
- strong clamp bracket

# PLUTO

- optional TUF 25W / TUF-R HP USB charging
- data and AV options available with PLUTO & cartridge
- choice of international sockets, data & AV

**PLUTO**  
On-desk Power & USB charging

☐ Polished White dome with grey sockets

**PLUTO**  
On-desk Power & USB charging

■ Satin Black (K2) with black sockets

**PLUTO**  
On-desk Power & USB charging

🌈 Choice of colours available for both the dome and sockets

**PANDORA BEVEL**  
On-desk Power & USB charging

☐ White body with grey sockets

**PANDORA BEVEL**  
On-desk Power & USB charging

■ Black throughout

**PANDORARC**  
On-desk Power & wireless charging

■ Black throughout  
☐ White body with grey sockets

**PIXEL<sup>TUF</sup>**  
On-desk Power & USB charging

■ Silver bezel with a choice of white or black body

**PIXEL<sup>TUF</sup>**  
On-desk Power & USB charging

■ Satin black bezel with matching black body

**PIXEL<sup>TUF</sup> BESPOKE**  
On-desk Power & USB charging

🌈 Black or white body with the bezel available in any (K2) colour

PLYHORIZONTAL  
On-desk Power & USB  
charging

■ Fenix Dark Grey Laminate

PLYHORIZONTAL  
On-desk Power & USB  
charging

□ Egger Alpine White Laminate

PLYVERTICAL  
On-desk Power & USB  
charging

■ Fenix Dark Grey Laminate

PLYVERTICAL  
On-desk Power & USB  
charging

□ Egger Alpine White Laminate

PEAK 60  
On-desk Power & USB  
charging

■ Brushed Stainless Steel  
Black Powdercoat

PEAK 80  
On-desk Power & USB  
charging

■ Brushed Stainless Steel  
Black Powdercoat

PODIUM 2 GANG  
On-desk Power & USB  
charging

■ Brushed Stainless Steel  
Black Powdercoat

PODIUM 4 GANG  
On-desk Power & USB  
charging

■ Brushed Stainless Steel  
Black Powdercoat

# PLY

- birch ply construction
- 2 gang vertical or 3 gang horizontal versions
- braided power cord option

# PICCOLO

---

- 60W USB-C laptop charging via TUF-HP
- Designed for use with OE QF30 PSU
- Option to power via QIKPAC battery

# SUB-SURFACE

**PICCOLO**  
Under desk (or on desk if you'd prefer...) power and USB charging.

■ Black

**PICCOLO**  
Under desk (or on desk if you'd prefer...) power and USB charging.

□ White

**PHASE**  
Under desk (or on desk if you'd prefer...) power and USB charging.

■ Black

**PHASE**  
Under desk (or on desk if you'd prefer...) power and USB charging.

□ White

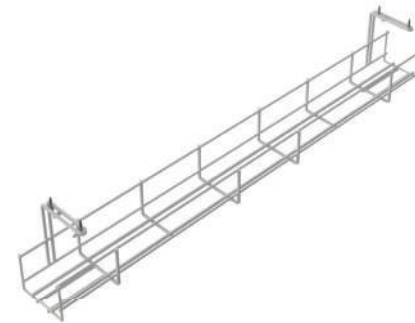

**PSU70**  
70W power supply for PICCOLO. Also compatible with the QIKPAC.

■ Black

**PSU70**  
70W power supply for PICCOLO. Also compatible with the QIKPAC.

□ White

**QIKTRAY**  
Steel cable tray, compatible with PSU70 & the QIKFIT range.

□ White (600mm)  
□ White (900mm)

**PULSE**  
On-desk Power, data & wireless charging

□ White  
■ Black  
■ Available in a range of colours

# PIP

---

- Choice of international sockets, data & AV
- Optional TUF 25W / TUF-R HP USB charging
- rear or side cable exit

# PANEL MOUNT

# PLATEAU

- Choice of international sockets, data & AV
- Optional TUF 25W / TUF-R HP USB charging
- rear or side cord exit

Ideal for furniture installations

Flush profile

**PLATEAU 2G**  
Two power sockets, or one power and one TUF

■ Satin White  
■ Satin Black

**PLATEAU 3G**  
Two power sockets and one TUF USB charger

■ Satin Black  
■ Satin White

**POP**  
Discreet access to a single power socket with POP

■ Black

**POP**  
Discreet access to USB charging with POP

■ Black

**PIP**  
Discreet access to a single power socket with PIP

■ Available in a range of colours

**PIP**  
Discreet access to USB charging with PIP

■ Available in a range of colours

**PUMA 2G**  
Available with power, USB charging, data & AV

■ Black  
■ Grey

**PUMA 3G**  
Available with power, USB charging, data & AV

■ Black  
■ Grey

## POSE

- choice of international sockets
- optional TUF 25W
- fixed or free-standing options

FREE  
STANDING

### POSE

Power or USB charging on a flexible gooseneck with a weighted base. Ideal for foyers.

- Black body
- Bezel available in a choice of colours

### QIKPOST

Powered either by our QIKPAC battery for HP USB charging, or from mains for mains power.

- Black with orange cap and trim

### PELICAN

Configure up to three sockets with power, or USB charging. Available in two height options.

- White or Black body
- Dome available in a choice of colours

### PRESENTER

QIKPAC powered TV stand. Speak to your account Manager for more information.

- Satin Black

A versatile range of power, data, AV, and USB charging modules that can be either installed on their own or housed in one of our many mounting options.

Ideal for furniture installations

Replaceable module

Flexible mounting options

# QIKFIT

## QIKFIT MODULES

**QF15 TUF 25W**  
Panel mounted fast USB charging, compatible with many OE housings

Black  
White

**QF15 TUF-HP 65W**  
Panel mounted HP USB charging, compatible with many OE housings

Black

# TUF-R® HP

HIGH POWER (HP)  
USB CHARGING

TUF-R®/HP is designed for High Power items, allowing you to charge your laptop, phone, or tablet quickly and easily via the type-C USB outlet.

Simple to install and replace in the event of user damage.

Reversible USB-A to make plugging in your USB cable easy and frustration free.

Compatible with most OE products, giving up to 100W\* total charging output.

\* Output dependent on TUF model

# USB CHARGING

OUR RANGE OF USB CHARGERS.

**TUF-R 2.4A A+A 12W**  
Two USB-A ports with a combined output of 12W

**TUF-R A+C 25W**  
A USB-A port and a USB-C port with a combined 25W output

**TUF-R C+C 25W**  
Two USB-C ports with a combined 25W output

**TUF-R HP A+C 72W**  
A USB-A port and a USB-C port with a combined 72W output †

**TUF-R EP C+C 150W**  
Two USB-C ports with a combined 150W output †

**QF15 TUF 30W**  
A USB-A port and a USB-C port with a combined 30W output \*

**QF15 TUF HP**  
A USB-A port and a USB-C port with a combined 65W output \*

**QF05 TUF-R HP A+C 72W**  
A USB-A port and a USB-C port with a combined 72W output \*†

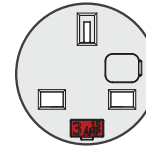

**QF05 TUF-R HP C+C 72W**  
Two USB-C ports with a combined 72W output \*†

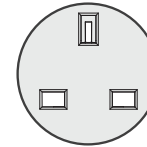

**QF05 TUF-R EP C+C 150W**  
Two USB-C ports with a combined 150W output \*†

\* Compatible with our QIKFIT range only.  
† This TUF require an external PSU for AC to DC conversion.

These are just some of the nationalities we cater for.

For more information on other power socket options, please get in touch or visit our website.

From the beginning OE products have been designed and built with the idea of reuse. The majority of our products, built in our UK factory in Wakefield, West Yorkshire, or in Sydney, Australia, are made up of modular components to ensure we can accommodate everyone of our customers' needs. The manner in which our products are installed, with their unique plug and play system, means

they can be disconnected and reconnected with ease, mounted and dismantled with minimum effort to ensure their usefulness remains despite the inevitable office change around. The modularity allows us to supply the entire world with each country's respective power outlet without wasteful unit redesigns and limited lifespan. We can design new and innovative products but use the same components saving precious materials and reducing our potential carbon emissions.

Scan here with your smartphone to read our full 2023 ESG Report

Achieving net zero emissions for any manufacturing company is a challenge. Although we would like to source our materials and components locally, like most manufacturers we source materials and components from many places around the world.

In order to make the biggest impact in the shortest amount of time we have decided to focus on areas where we have the most control while at the same time making an impact on the wider issue at a more reasonable pace to ensure the security of the business.

OE is committed to achieving net zero operation by 2035.

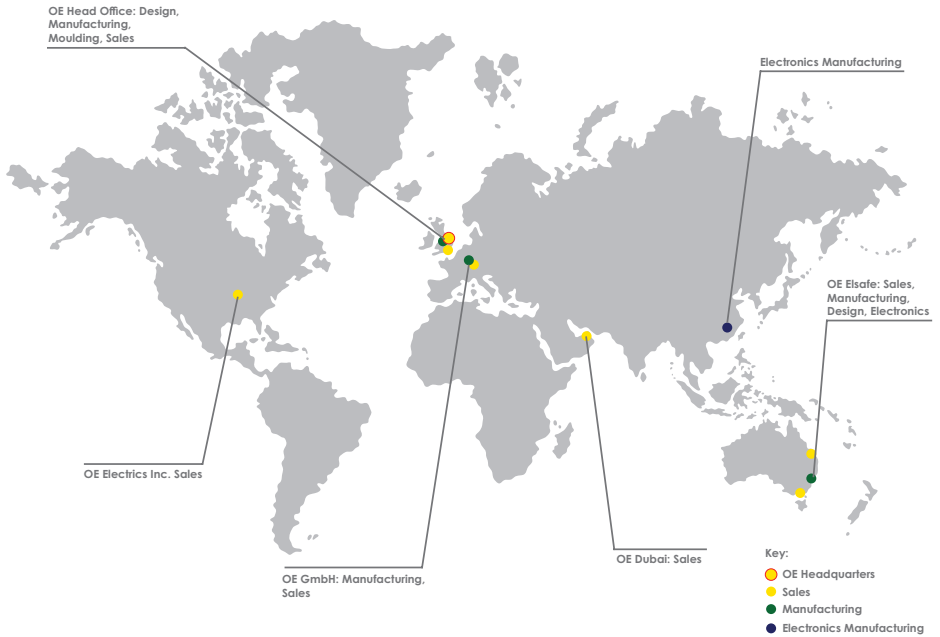

Here's some progress so far from 2022\*...

- We recycled 20 tonnes of cardboard
- We recycled 12 tonnes of plastic
- We recycled 6 tonnes of metal
- We recycled 3.5 tonnes of wire
