

Premium Office Dual

Premium Office Dual, the newest monitor arm from BakkerElkhuizen, is modular so that your desired configuration can be realized.

Rather than work in the wrong position, use of a monitor arm is much more comfortable and increases productivity by 10%.

Multiple studies have found that using two or more screens can substantially improve performance (University of Utah, 2008; Colvin et al., 2004; Czerwinski et al., 2003).

Placing the monitor too low can increase neck strain. Placing it too high (the top should not be above eye height) can also cause problems. Even more important may be the adjustability of the depth, allowing for optimal viewing distance all the time. This helps you absorb information and causes the least eye strain. Rather than work in the wrong position, this optimal monitor position is much more comfortable and increases productivity by 10% (Sommerich et al., 1998).

The newest monitor arm from BakkerElkhuizen

An ergonomic workspace promotes comfort and productivity of computer workers. Monitor arms are an important element of this process, creating more room on your workspace and improving your work posture. The Premium Office Dual is modular, so that your desired configuration can be realized.. It is important to use a monitor arm: rather than work in the wrong position, an optimal monitor position is much more comfortable and increases productivity by 10% (Sommerich et al., 1998).

Advantages of the Premium Office Dual

Smart cable management

Smart cable management is built into the monitor arm. You can now hide the cables while improving movement!

Customisable

Thanks to the patented flexible expansion installation you can choose the depth and height. Comes with a clamp and bolt-through.

Unique

The slide system increases the setting options.

Gas spring arm

The Premium Office can turn 180 degrees at any hinge. The new strong, patented gas spring arm can support between 2 and 12 kg.

Pivotable

The Vesa head has a quick-release mechanism and the monitor can be fully tilted horizontally, switching from portrait to landscape mode.

Durable

The Premium Office Monitor arm is 98% recyclable and is made out of durable materials.

Knowledge Center

An ergonomic workstation promotes the comfort and productivity of DSE workers. It is easy to create the ideal workstation with a few minor adjustments. Monitor arms provide more space for your workstation and improve your posture.

In addition, the height and distance of monitor arms can be adjusted easily. Moreover, more and more people are working...
