# S-board 840 Design USB

compact keyboard

## Lightweight, thin and compact

The S-board 840 is a compact ergonomic mini keyboard for use with laptop and desktop PCs.

This keyboard has conveniently placed navigation keys, an integrated numeric pad, a larger enter key, and two USB ports.

A compact keyboard does not have a numeric pad. For this reason, the mouse can be placed closer to the keyboard. Research has shown that 90% of keyboard users seldom if ever use the numeric pad.
