

Ergo-Q Hybrid Pro

Versatile tablet- and laptop stand with the best quality.

The Ergo-Q Hybrid Pro is a tablet- and laptop stand in one, and the perfect tool for your hybrid workstation.

Two combined methods of height adjustment for the ideal screen position of your mobile device.

Adjust your laptop screen to the correct height, angle, and distance so that you automatically adopt an ergonomically correct posture.

1. Distance between your eyes and the screen should be 50-80 cm (approximately an arm length), depending on monitor size and resolution. Adjust the distance of your screen.
2. The angle of your line of vision to the middle of the screen should be approximately -35° , so also adjust the height of your screen.

Legal requirements: The laptop is not suitable for longer use without external devices.

Versatile tablet- and laptop stand with the best quality.

The Ergo-Q Hybrid Pro is easily adjustable, foldable into a compact size with practical magnetic closures, has anti-slip feet and is made of high-quality aluminium sandwich material for a high stability and durability. The Ergo-Q Hybrid Pro is a versatile solution so that you can work everywhere ergonomically and comfortable with all your mobile devices.

Advantages of the Ergo-Q Hybrid Pro

Hybrid - Two methods of height settings.
 With the Ergo-Q Hybrid Pro you have the choice between two height adjustment ranges with in total 25 height adjustment levels, which vary between 140 mm and 430 mm.

Use it as a tablet- or mobile screen stand.

The Ergo-Q Hybrid Pro can be used in many ways. If you need a tablet or mobile screen holder, then easily fix your device with the help of the flexible clamp.

Use it as a laptop stand.

The Ergo-Q Hybrid Pro is suitable for laptops up to 16 inches. You can choose between five different height adjustment levels, which are easy to adjust with the strap in the front.

Adapt a healthy posture.

You can get your screen to the right height, angle, and distance. Raise the screen of your device, reduce the viewing distance, and prevent unnecessary bending of your neck and back "into your screen".

Always stable. High-quality aluminium sandwich material.

The Ergo-Q Hybrid Pro is made of a high-quality aluminium sandwich material. This unique material, which is also used in the automotive industry, is lighter than aluminium and resistant to dents.

Easy to carry. Mobile.

You can therefore easily take it with you anywhere, as it fits into any backpack or laptop bag and thanks to its weight, you don't even notice, that you are carrying it with you. Thanks to its clever design, it is easy to fold and unfold.

The Ergo-Q Hybrid Pro is a **tablet- and laptop stand in one**, and the perfect tool for your hybrid workstation. Two combined methods of height adjustment **for the ideal screen position** of your mobile device. Especially for tablets and mobile screens you can reach a **height of up to 422 mm**. The Ergo-Q Hybrid Pro is easily adjustable, foldable into a compact size with practical magnetic closures, has anti-slip feet and is made of **high-quality aluminium sandwich material** for a high stability and durability. The Ergo-Q Hybrid Pro is a versatile solution so that **you can work everywhere ergonomically and comfortable** with all your mobile devices.

Hybrid – Two methods of height settings. With the Ergo-Q Hybrid Pro you have the choice between two height adjustment ranges with in total 25 height adjustment levels, which vary between 140 mm and 430 mm.

Appropriate for laptops is the lower height adjustment range from 145 till 272 mm with five basic levels. Simply unfold it and loosen the flexible height adjustment strap from the magnetic lock at the bottom. Then choose one of the five heights and set your personal optimal height level.

The higher adjustment range is from 145 to 422 mm and suitable for tablets and mobile screens. To adjust the height, simply slide the screws to the side and use the easy-to-use unlock function. Bring your device up to a comfortable, ergonomic height. Here you can choose one of the five basic levels with the help of the flexible strap, and for each of the basic levels five additional height levels.

Use it as a tablet- or mobile screen stand. The Ergo-Q Hybrid Pro can be used in many ways. If you need a tablet or mobile screen holder, then easily fix your device with the help of the flexible clamp. This clamp is made of soft material, so that your device is not scratched. In addition, you can still use your camera due to the special clamp design. You can use the Ergo-Q Hybrid Pro when you are standing, for example for presentations. You can also position it next to your fixed monitor and use it as a second screen. The Ergo-Q Hybrid Pro can be used in many ways and is therefore very flexible in usage.

Use it as a laptop stand. The Ergo-Q Hybrid Pro is suitable for laptops up to 16 inches. You can choose between five different height adjustment levels, which are easy to adjust with the strap in the front.

Adapt a healthy posture. Either as a laptop stand or a tablet stand, with the Ergo-Q Hybrid Pro you can get your screen to the right height, angle, and distance. Raise the screen of your device, reduce the viewing distance, and prevent unnecessary bending of your neck and back "into your screen". You automatically adopt a healthier posture and reduce physical discomfort.¹ From now on, it is guaranteed, that you will work more productively with the help of the Ergo-Q Hybrid Pro.

Info box – Ergonomics

Adjust your screen to the correct height, angle, and distance so that you automatically adopt an ergonomically correct posture.

1. **Distance** between your eyes and the screen should be 50cm-80 cm (approximately an arm length), depending on monitor size and resolution. Adjust the distance of your screen.²
2. The **angle** of your line of vision to the middle of the screen should be approximately -35°, so also adjust the height of your screen.³

Legal requirements

The laptop is not suitable for longer use without external devices.

If the laptop is used for more than one hour per day, external devices are required to meet legal guidelines.

To be able to work comfortably and productively with a laptop for a long time, a laptop stand, an external mouse, and an external keyboard are therefore indispensable. If you use an external monitor and position the laptop screen at the same height, both can also be used as a dual screen.⁴

Always stable. High-quality aluminium sandwich material. The Ergo-Q Hybrid Pro is made of a high-quality aluminium sandwich material. This unique material, which is also used in the automotive industry, is lighter than aluminium and resistant to dents. Thanks to the various layers of aluminium sandwich material the Ergo-Q Hybrid Pro is very stable. The anti-slip feet at the bottom ensure that the laptop stand remains firmly in place. The open design not only ensures a modern look, but also keeps your device cool. The trend color dark grey with a matt finish give the Ergo-Q Hybrid Pro an exclusive and modern look.

Easy to carry. Mobile. The special feature of the aluminium sandwich material is that this high-quality material has a particularly low weight. With a weight of only 390 g and a folded size of 199 x 284 x 13.5 mm, the Ergo-Q Hybrid Pro is smaller than an A4 paper and very light. You can therefore easily take it with you anywhere, as it fits into any backpack or laptop bag and thanks to its weight, you don't even notice, that you are carrying it with you. Thanks to its clever design, it is easy to fold and unfold. The magnetic closure ensures that it stays folded. Thanks to the included environmentally friendly protective sleeve, the Ergo-Q Hybrid Pro is protected during transport.

(*This product should be used with an external keyboard and mouse (sold separately)).
