

# The Egg Ergo Mouse Pad

BAKKER ELKHUIZEN

Work Smart - Feel Good

Ergonomic mousepad

## Never have a cold mouse hand again!

The Egg Ergo Mouse Pad is an ergonomic mouse pad with a unique egg-shaped design. This design is actually the natural mouse pattern of a computer user.

The mouse stays in place thanks to the rubber bottom of the mousepad. You can move the mouse fast and smoothly, and stay productive.

When working with a keyboard and mouse it is important that the arm is sufficiently supported by using a good armrest on the chair or a separate armrest. An armrest reduces muscle tension in the arm and shoulder and promotes comfort. A wrist support helps to keep the wrist straight during typing and can be used `to rest` for a moment during one's work.
