

TV Tischständer

UNIVERSAL / SCHWENKBAR

New televisions often come with a standard fixed base. Replace your TV base for a Cavus TV swivel base and create the perfect angle to view your favourite TV programs. The 30° swivel allows viewing flexibility, which means that you can always have the ideal angle in any room. Perhaps the room is large, with several sitting areas, or maybe you have a lot of windows that cause a troublesome glare at certain times of day. A Cavus TV swivel base is the solution for creating different viewing angles. The swivel base is made of high quality black glass (23.4 x 48.5cm) and the VESA Adapter secures a sound fit. Suitable for: 46" bis 60" televisions up to 40 kg VESA 100x100, VESA 100x200, VESA 200x200, VESA 300x200, VESA 300x300, VESA 400x200, VESA 400x300, VESA 400x400, VESA 600x200, VESA 600x400.
