PRODUCT

The universal tablet safety holder secures all tablets! The new safety stand is compatible with all leading branded tablets with dimensions of 7 inches or more. Thanks to its wide compatibility, it is perfect for any application situation - whether it's in a retail store, office, school, VIP lounge or as a complement to your own home entertainment system. With its simple design and unique security features, it stands out from the wide range of tablet stands available on the market today. It convinces with the optimal viewing angle of 45 degrees and an open back side, which remains free for the connection for anti-theft protection and the security cable. The stand has a specially shaped stabilizing base that prevents cable tangles as well as anti-theft protection.
