Power Powerbar 5x Schuko - 503

The Powerbar, a high-end, three-socket power strip for professional use. The integrated GST18/3 connectors allow units to be clipped together or interlinked by GST-cables to your on-desk Power products. The Powerbar is constructed with a fire-retardant polycarbonate and aluminium housing. Mount the Powerbar underneath desks in cable trays or on panels to manage office power needs safely and discreetly. The Powerbar complies with all relevant regulations and safety standards, including those in the EU.
