ULTIMATE FUNCTIONALITY IN A COMPLETE AND COMPACT WALL MOUNT SYSTEM!

Ergotron's LX Wall Mount Systems offer healthcare professionals a fully integrated solution that accommodates a monitor, keyboard and CPU—all on a single, secure wall track. The two independent arms adjust effortlessly so caregivers can experience ergonomic comfort while viewing and entering data. Most important, its total flexibility helps enhance personal interaction between caregivers and their patients.

When not in use, the entire system folds up tight—just inches from the wall—making it ideal for tight spaces or areas with high traffic. Our sit-stand model provides added height adjustment, so users can choose to sit and stand throughout the day for a healthier way to work.
