**EVoline® Bridge Module**

**schulte**  
elektrotechnik

invented and made by  
Schulte Elektrotechnik,  
Lüdenscheid, Germany.

### Systematic Cable Organisation.

When power and data cables need to be distributed in a room, the EVOLine® Bridge ensures the cables are systematically organised, for health and safety. The six EVOLine® Bridge modules extend the Bridge profile range allowing cables to be distributed in nearly all directions. For example the vertical module delivers the possibility to make transitions from floor or ceilings to walls even to furniture. The specially designed adapter completes a flawless connection to our existing EVOLine® WireLane System.

Description	Picture	Specification	Order No.
EVOLine Bridge Screw mounted aluminium cable bridge (Screws are not supplied.) with black decoration insert		Length: 500 mm	1593 5010 5000
