

MonLines MBS009S

Monitor floor stand low height, 37 - 75 inch

Description

The MonLines MBS009S is an excellent mobile monitor stand suitable for use in conference rooms or meeting spaces for conferences, presentations, or even as a teleprompter. This sturdy black TV trolley offers flexible positioning and can accommodate screens weighing up to 70 kg, with diagonal measurements ranging from 37 to 75 inches. Its 45° tilt function enables you to adjust the viewing angle of the display according to your preference. Equipped with four lockable castors, the monitor floor stand can be effortlessly moved from one room to another without requiring significant time or effort. The column features an integrated compartment for multiple sockets and cables, ensuring organised cable management. The cable connections are conveniently located directly on the stand to prevent tripping hazards and maintain a tidy appearance. For deployment in public spaces, the wheeled TV stand can additionally be secured with an optional padlock, available separately. MonLines – For your individual and functional needs.
