

MonLines MBS012W

Mobile electric monitor stand with shelf up to 98"

Description

The motorised, height-adjustable MonLines MBS012W TV stand is designed for use in offices, educational institutions and the hospitality industry and offers versatile solutions for all users who want to use screens for presentations, video conferences. The mobile monitor mount supports workflows in conference rooms and meeting rooms, at trade fairs or in universities / schools as a replacement for blackboard systems. With the supplied RF remote control, 2 positions can be stored and thus the height of the screen can be adjusted. The two powerful motors have a load capacity of 120 kg for TVs up to 98 inches. Another highlight are the two height-adjustable shelves for camera and AV equipment.
