

MonLines MDH013B

Height adjustable monitor ceiling mount 444-794 mm

Description

The MonLines MDH013B television ceiling mount provides a range of features to enable versatile monitor positioning. This ceiling mount, capable of swivelling, rotating, and tilting, is appropriate for both level ceilings and inclined roofs. It is accompanied by a 794 mm column that can be affixed to diverse ceiling types, including those that are suspended. The ceiling mount is optimally designed to accommodate screens up to 37 inches in size. It comprises a VESA bracket and an adaptable column. The VESA bracket permits an inclination of up to +/- 15 degrees. The telescopic ceiling mount's 360° swivel and rotation capabilities facilitate turning the monitor in all directions. The column's height can be adjusted within a range of 444 to 794 mm. This MonLines ceiling mount is demonstrably the optimal choice for digital signage applications, whether utilized at the point of sale (POS) within storefronts and shopping precincts or within heavily trafficked public venues such as railway stations and airports. MonLines - For your individual & functional needs.
