

MonLines MDH014B

Electric TV ceiling mount up to 85 inch

Description

The TV ceiling lift from MonLines (MDH014B) can be easily adjusted to individual requirements thanks to its 85° tilt angle. The TV experience can be enjoyed in any position, whether standing, sitting or lying down. Thanks to its 50 kg load capacity and built-in anti-collision protection, the electric TV ceiling mount offers reliable safety for ceiling mounting of large flat screens or curved TVs up to 85 inches. The foldable TV mount can be controlled either using the remote control supplied or simply using the existing TV remote control, whereby a preferred position can be permanently saved. The motorized ceiling lift can also be operated via smartphone app or smart home applications such as Amazon Alexa and Google Home using the optionally available WLAN adapter. Alternatively, a 2-way cable for a programmable logic controller (PLC) is also available.
