

MonLines MDK001B dual VESA adapter for two monitors

Description

The MonLines MDK001B accessory dual monitor kit is a handy extension for VESA-capable brackets that will be complemented by a second screen. An affordable solution for anyone who wants to mount two monitors on a single-monitor fixture. A simple wall mounting is also possible.

With the MonLines MDK001B dual kit you can quickly expand a monitor mount to include a second screen. Simply attach the expansion kit to the VESA pattern of your monitor mount to establish a dual monitor mount.
