

MonLines MDSH002B

pitched roof TV ceiling mount 23-55 inch

Description

The flexible monitor ceiling mount MDSH002B from MonLines is particularly suitable for mounting on roof slopes. Due to a tilt angle of 90 degrees as well as an integrated swivel function, the foldable TV ceiling mount can be easily adjusted to the individual viewing angle. The sloping roof TV bracket supports displays weighing up to 20 kg and 55 inch screen diagonal. If the TV / monitor is not used, the holder can be folded away with just one hand movement to save space.
