

MonLines MEF001

Spare remote control for MLS TV Lift systems

Description

The MonLines MEF001 radio remote control acts as a replacement for the motorised built-in TV lifts from MonLines. It has a range of up to 9 metres and is compatible with the MonLines TV lift systems MLS006B, MLS005B, and MLS032B. The MonLines MEF001 handset is powered by 2 AAA batteries (not included) and features a memory function for favourite settings and positions. Its user-friendly design allows for convenient control of the MonLines electric TV lift systems. The wireless system operates via radio transmission (RF) and is ideal for electric MonLines TV lift system brackets where cables are not desired. MonLines – For your individual & functional needs.
