

MonLines MLS020B / MLS021B / MLS022B / MLS023B TV lift with flap opener

Description

The electric built-in TV lift from MonLines can be retracted into a piece of furniture. By pressing a button on the supplied radio remote control, the screen can be extended. The built-in flap opener automatically folds the lid of the furniture back and closes it again discreetly when retracted. Favorite positions can be easily saved. Thanks to the anti-collision function, the TV is protected from possible damage. There is also a separate socket for the TV's power connection. When the TV lift is retracted, the TV is simultaneously disconnected from the power supply for additional safety. The integrated cable management ensures a tidy interior.
