

## MonLines MLS033B built-in TV lift up to 75 inch

### With flap opener, rotatable 90° / 225° R

### Description

The electric built-in TV lift from MonLines is suitable for TVs up to 75 inches and can be retracted into a piece of furniture. By pressing a button on the supplied radio remote control, the screen can be extended. The built-in flap opener automatically folds the lid of the furniture back and closes it again discreetly when retracted. When extended, the rotating TV lift can also be moved 90° to the left and 225° to the right. Favorite positions can be easily saved. Thanks to the anti-collision function, the TV is protected from possible damage. There is also a separate socket for the TV's power connection. When the TV lift is retracted, the TV is simultaneously disconnected from the power supply for additional safety.

### Key features
