

## MonLines MTH217 monitor desk mount clamp Para-System Widescreen 4-fold

Grey RAL 7035

Black RAL 9011

### Description

The MonLines Para-System 4-fold table mount with table clamp is a multi-monitor mount for four monitors on a parabolically shaped traverse with a load capacity of 15 kg per monitor bracket with VESA patterns 75x75 and 100x100 mm. Widescreen variant for 20 to 24 inch screens.

The MonLines Para-System offers multi-screen solutions for widescreen monitors, which can be infinitely adjusted horizontally and vertically. The solid metal construction of the MonLines monitor bracket in high-quality powder coating is available in various colors and mounting variants. The Para-System for the parabolic arrangement of the monitors offers investment security through its modular expandability. Special sizes are available upon request.
