

MonLines MSH006

Accessories for MSH slatwall, monitor arm long, white

Description

The tiltable, rotatable and swiveling MonLines Slatwall Monitor Holder MSH006 in white is made of high quality metal. The toolbar monitor holder is suitable for the MonLines organization rails MSH001 and MSH002. The beautifully designed monitor swivel arm has a convenient pivot point. The monitor holder can be adjusted optimally and ergonomically for the user. By attaching the monitor arm to a rail system, less space is needed on the desk. The monitor mount is equipped with clips for optimal cable management. The monitor holder supports displays from 17 to 32 inches with a weight of up to 8 kg. The installation is very simple, because the monitor holder only needs to be hung in the panel of the slatwall.
