

Data Sheet

MonLines Monitor Transport case

Description

The MonLines Monitor Transport Case is suitable for flat screens in various sizes. The display case is equipped with four handles and four high-quality butterfly Closures, which make opening the case easy. The transport case can be moved easily and without great effort using four rollers, two of which are equipped with a brake.

Monitor transport cases can be used for different areas of application. As a trade fair transport case, at conferences, events such as Concerts, festivals, in clubs and discos for video walls or at workshops - there are no limits to the areas of application.

When ordering, the transport case is customized to fit your monitor / TV device.
