

MonLines MWH029B

TV wall mount up to 90 inch, adjustable wall distance

Description

The MonLines extendable TV wall mount supports large TVs and monitors with a maximum diagonal of 75 kg or 90 inches. When folded, the monitor holder lies flat against the wall and can be extended by approx. 6 cm if required, e.g. for easier access to the cabling. For fine adjustment of the viewing angle, the TV wall bracket can also be slightly tilted and rotated. The VESA mount has a snap lock and can optionally be secured against theft with a (separately available) padlock. Installation is easy thanks to the included instructions and the built-in spirit level.

Key features

Screen size:	43 - 90 inch
VESA standard:	200x200, 200x300, 300x200, 200x400, 400x200, 300x300, 300x400, 400x300, 600x200, 400x400, 600x300, 600x400, 800x400 mm
