

MonLines mySwing MSM06 / MSM08 electric TV wall mount up to 65 / 75 inch

Description

The electrically swiveling TV wall mount from MonLines is suitable for TVs with up to 65 inches / 30 kg (MSM06) or 75 inches / 40 kg (MSM08). To set the ideal viewing angle, it can be swiveled 180° to the left or right and manually tilted 7 degrees. No additional remote control is needed, as the TV mount is compatible with most infrared TV remotes. A preferred angle can be preset on the remote and recalled later with a simple push of a button. Alternatively, the TV wall bracket mySwing MSM06 / MSM08 can also be controlled via smartphone or Smart Home applications such as Google Home and Amazon Alexa using the separately available MonLines MSM07 WLAN adapter.
