

## MonLines mySwing MSM11 electric TV wall mount up to 75 inch

### Description

Televisions with a screen diagonal of up to 75 inches and a maximum weight of 35 kg can be mounted on the electric swivel TV wall mount from MonLines (MSM11). It can be swiveled 65° to the left or right for optimum adjustment of the individual viewing angle. When fully retracted, the distance between the flat TV mount and the wall is only around 9 cm. In addition, up to 2 preferred viewing angles can be programmed on the enclosed IR remote control and recalled later at the simple press of a button. Alternatively, the TV wall bracket can be controlled with almost any standard (infrared) TV remote control and, with the help of the separately available MonLines MSM07 WLAN adapter, also via smartphone or smart home applications such as Amazon Alexa and Google Home. Built-in collision protection protects the motorized TV wall holder from any damage. Integrated cable routing creates a tidy overall appearance.

### Key features
