

## MonLines SIDES TV SideBoard with motorized lift

### Description

The MonLines SIDES SideBoard cabinet series with TV Lift can accommodate TV sets from 42" to 75". The motorized monitor mount is equipped with a lift technology and allows the display to move out of the TV with one touch. When not in use, the TV set is lowered into the cabinet by the lift and hidden. The complete technology is inside the MonLines SideS cabinet. With the Multimedia SideBoard you decide when the AV technology should be visible - simply at the touch of a button, quickly and quietly. This stylish SideBoard realises sophisticated and representative room concepts in all areas, such as educational institutions, conference rooms, museums or in the living room at home. MonLines - For your individual needs in life & business.
