

MonLines MBH001

Mediabox / PC mount 32-46 mm

Description

The MonLines universal Mediaplayer / Mediabox mount MBH001 is an excellent solution for accommodating streaming boxes like Apple TV or other multimedia players, as well as compact mini PCs, satellite receivers, or cable receivers weighing up to 5 kg. This versatile media player mount can be affixed directly to your TV or optionally on a wall. You can easily adjust the holder's depth precisely to fit your specific device using the two rotary knobs. Secure fixation is ensured by two elastic straps. Opting for wall mounting not only saves tabletop space but also provides convenient access to switches, output sockets, and cables on both sides of the player, thanks to its open design. Its adaptable design accommodates various media players, hard drives, cables, and satellite boxes. All the necessary installation materials are included in the package for your convenience. **MonLines** - For your individual & functional needs.
