

NOVUS SlatWall-LM arm 0-0-1

The easiest way to fit a monitor to a SlatWall element. The monitor can be moved horizontally whenever necessary and adjusted to exactly the preferred position on the SlatWall element by means of the pivoting ball joint.

The arm can be pivoted 180° in the working area and has a reach up to 125 mm.

The ball-joint provides superb flexibility no matter how confined space is, allowing you to select the best possible angle for viewing your monitor.

The quick-release mechanism with 1-lever operation allows the monitor weighing up to 8 kg to be attached without undue effort. It is equipped with the standard, widely used flat-screen mount 75 x 75 and 100 x 100 for the mounting of all normal flat-screens.
