- Modular design enables multiple columns to be joined for a longer overall length
- Column available in choice of either Black (/BK) or Silver (/SI) finish to complement existing decor

peerless-AV™

Cable Management Column

The Cable Management Column provides a neatly concealed system for organising and managing cables and wires that run from the AV components to a wall mounted television. This stylish product is able to accommodate numerous cables within the sleek and unobtrusive low profile design, whilst the modular design enables multiple columns to be joined for a longer length. The addition of the optional AV Component Shelf to support AV equipment creates a complete solution.

ACWAS1/BK

FEATURES

- Easy movement along the column for optimum shelf positioning (ACWAC1 Cable Management Column sold separately)
- 10kg (22lbs) capacity to support AV components and accessories
- Tempered safety glass for increased durability and shatter resistance
- Designed to work with Peerless-AV Cable Management Column ACWAC1 sold separately

AV Component Shelf

The AV Component Shelf is the perfect solution to create a stylish, contemporary AV support system. Developed to easily and securely attach to the Peerless-AV Cable Management Column each shelf is able to accommodate one piece of audio visual equipment. The tinted glass shelf is adjustable along the column length allowing for multiple height positioning and is made from tempered safety glass which is more durable and shatter resistant for domestic use.
