

# FUNC WH T

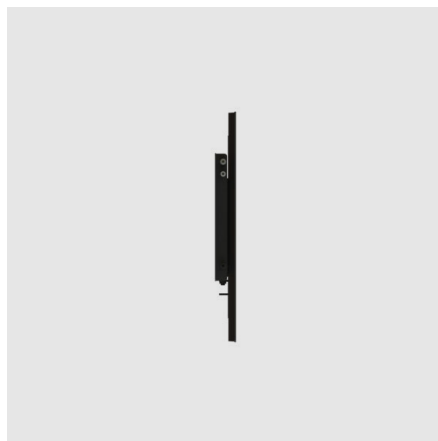

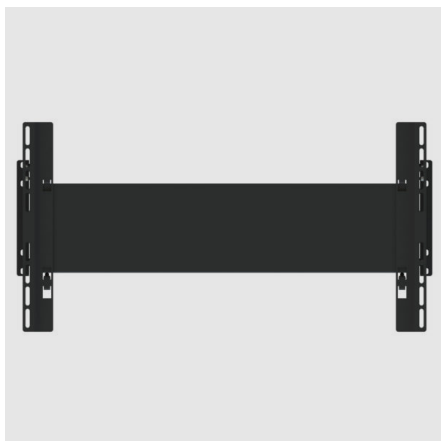

Give your friends a better view

An easy way to give large screens a tilt function

Sets even large screens at the correct angle.

A clever solution when you need a tiltable wall bracket – when mounting a screen high on a wall, for example. The range of VESA standards, from 200 x 100 to 800 x 400 mm, makes this bracket compatible with most popular screen sizes. The product can be set in either of two fixed positions, enabling it to be mounted either flush with the wall or tilted forwards by 8 degrees. Black. Maximum load 50 kg.
