

TabLines TBS

Tablet floor stand for all available tablets

Description

Elegant design. The TabLines design tablet floor stand presents the tablet in a very elegant way. Due to its low weight, the tablet stand can be easily positioned anywhere. Clean lines, a gentle but present appearance and a high-quality powder coating make the tablet stand to an enrichment for every place where content is presented.

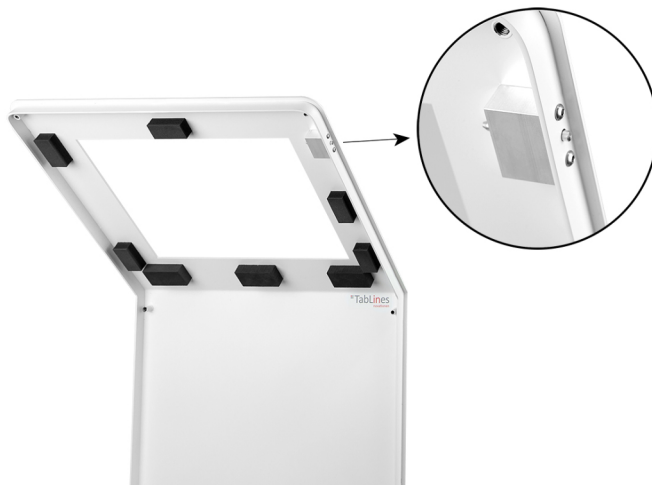

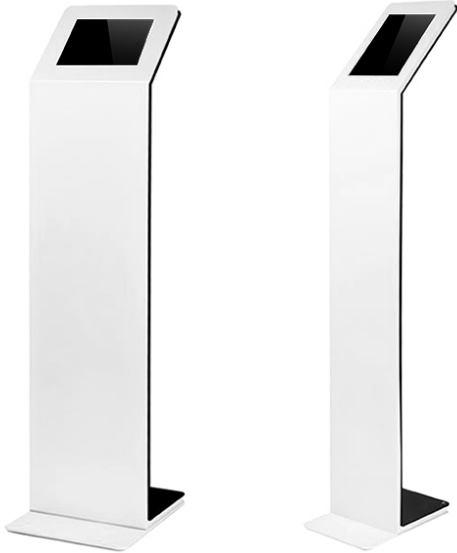

Optimized for public use. The TabLines TBS design floor stand is resistant to traces of usage of any kind and was made of solid steel. He has a white, silk-matt front, made as a synthetic coating. The back of the TabLines tablet design stele is black, powder coated and microstructured. A visually compelling and durable product.

Use in all areas possible. With the TabLines design floor stand, the tablet becomes an integrated, custom design touchscreen in meeting and conference rooms, as a room booking system, as a check-in terminal at airports, as an interactive source of information in showrooms, in car dealerships, furniture shops, galleries, museums, shopping malls and much more.

The right variant for everyone. The TabLines TBS floor stand is available in portrait or landscape format. The TBS in landscape mode is optionally available with a 26,000 mAh power bank. It extends the battery life of the tablet up to eight hours. TabLines offers various model-specific holders for all tablets available on the market. In addition to the TBS floor stand, there are also design tablet table stands, protective housings, screw-on desk mounts for more theft protection or tablet wall mounts.
