

TabLines TBS064

Design tablet stand landscape with battery, Apple iPad 9.7 (2018)

Description

The TabLines TBS064 design tablet stand in landscape orientation for the new Apple iPad 9.7 (2018) is a shapely iPad floor stand.

The integrated 26,000 mAh power bank makes the tablet stands independent of power sources and extends the cable-free battery-operated operating time by eight hours. The supplied USB cable can be used to charge the power bank.

The TabLines design floor stand TBS064 is made of solid steel. The tablet stand has a white, semi-gloss front, made as a plastic coating. The back of the TabLines tablet design stele is black, powder coated and microstructured.
