

TabLines

THWD002 Cavity wall device box 61 mm

Description

The TabLines THWD002 Cavity Wall Box (drywall) 61 mm depth can be used in combination with the TNT003 as a permanent flush-mounted power supply e.g. for the TabLines TWE tablet wall mount solutions or TWH tablet wall holders.

The TabLines cavity wall socket is mounted concealed behind the tablet in combination with the TNT003. The installation depth is 61 mm with a milling diameter of 68 mm.

Attention: Only the cavity wall socket is included in the delivery, for a permanent power supply for the TWE or TWH you need the power supply with USB adapter TNT003.
