

TabLines TSG054 Tablet Case for Apple iPad 9.7 (2018)

Description

TabLines has made an elegant and slim tablet case made of high quality steel, which can be combined with various mounting options. The ultimate protective case for your tablet is made of sturdy and refined steel, stainless steel or real wood. The functionality and all WLAN-based applications of your tablet remain unrestricted in the protective housing!

The TabLines TSG054 can be used as an iPad protective case and iPad wall mount for the Apple iPad 9.7 (2018), the homebutton remains hidden in this iPad case. The iPad holder made of steel is theft-proof (except TSG made of oak) and has proven itself for public use. It is also gladly used with SmartHome solutions.

The TabLines TSG054 protective case for the Apple iPad 9.7 (2018) can be mounted directly to the wall or attached to any VESA-compatible TabLines holder using the 100x100mm VESA mounting holes.
