Datasheet

TabLines TTS040

Design tablet table stand rotatable, Apple iPad 9.7 (2018)

Description_

A real asset to the ambience of modern interiors. With the innovative rotary module, your Apple iPad 9.7 (2018) can be rotated in the elegant design holder by up to 360°. The cable management remains fully usable and the special pivot prevents cable clutter.

With the tablet stand of TabLines TTSO40, every tablet becomes an integrated, custom design touchmonitor for modern multiroom systems, home and commercial media technology, smart home, home entertainment and the control of intelligent building technology.
