

TabLines TTS042

Design tablet table stand screwable, Apple iPad 9.7 (2018)

Description

TabLines TTS042 offers the ideal tablet stand solution for the Apple iPad 9.7 (2018) for all common WLAN-based home automation control systems.

With TabLines TTS042, every tablet becomes an integrated, custom-designed touchmonitor for modern multiroom systems, home and business media technology, smart home, home entertainment and intelligent building control.

The TabLines TTS042 Design tablet table stand can be screwed directly to the table. This feature dramatically improves theft protection and ensures an unprecedented level of stability.
