

TabLines TTS043

Design tablet table stand, Apple iPad 9.7 (2018) oak

Description

Real wood stands for quality, individuality and longevity and is extremely resistant to fingerprints - the perfect material for a table mount for your Apple iPad 9.7 (2018). The TabLines tablet stand TTS043 is a true enrichment for the ambience of modern interiors and practical at the point of sale.

With TabLine's TTS043 iPad table stand, every tablet becomes an integrated, custom design touchmonitor for advanced multiroom systems, home and business media technology, smart home, home entertainment, and intelligent building control. Due to the clever cable management, the tablet can also be charged at any time in the table mount and is always ready for use.
