

## TabLines TWH010

### Design tablet wall mount, Apple iPad 9.7 (2018)

#### Description

TabLines TWH010 offers the ideal tablet wall mount solution for the Apple iPad 9.7 (2018) for all standard WLAN-based home automation controllers. As part of a complete control solution, the Apple tablets offer a variety of practical and user-friendly applications, for example as an alternative to existing KNX switch programs.

With TabLines TWH010, every tablet becomes an integrated, custom-designed touchmonitor for modern multi-room systems, home and business media technology, smart home, home entertainment and intelligent building control.

The TabLines TWH010 design tablet wall mount is screwable and can be attached directly to any wall.
