

TecLines TAS010

Corner socket strip with USB A/C

Description

The TecLines TAS010 corner socket strip presents an exceptionally pragmatic solution tailored for the contemporary kitchen, efficient office spaces, or cozy home offices. Featuring a generous cable length of 1.8 meters, this top-tier corner socket outlet facilitates the simultaneous connection of multiple devices while conserving precious space. Boasting two grounded sockets alongside a dual USB-A and USB-C connection, this power strip accommodates a diverse range of devices, both conventional and USB-powered. Flexible in its placement, the power strip can be oriented horizontally or vertically within a corner or along an edge, seamlessly integrating with existing decor. Through its innovative design, this power strip optimizes surface utilization on countertops, kitchen islands, or desks, fostering an orderly and clutter-free workspace. Installation options abound; simply position the multiple socket outlet upright or horizontally, or opt to securely mount it in your preferred corner or edge using the provided screws and plugs. TecLines – Intelligent technology by creative minds.
