# TecLines TES013S built-in socket
# with 1x USB-A, 1x sliding cover, silver

## Description

The TecLines is a contemporary TES013S built-in socket with an integrated USB port that is perfect for a variety of surfaces. This product is specifically designed for use in indoor spaces such as offices, kitchens and conference rooms. Thanks to its compact design and the ability to integrate it flush into work surfaces, it takes up minimal space.

The recessed socket gives your room a sleek and modern look while providing a practical solution for your power and charging needs. The round connection panel is equipped with a protective contact socket and a USB A port with quick charging function (2.4A) as well as a silver sliding cover.
