

# TecLines TES015B

## built-in power socket with a USB A/C & Qi charger

### Description

The TecLines TES015B built-in power socket with a USB A/C and Qi charger (inductive charger) features a 1.5-metre-long power cable, complete with an angled plug. This concealed unit offers an ideal solution for the office, home office, or kitchen. This retractable built-in power strip is notable for its grounded socket and two USB Type A/C ports, making it effortless to charge smartphones, tablets, and other devices. Activation is as simple as a gentle touch, allowing the built-in socket to smoothly extend or retract into the worktop or desk. Consequently, when not in use, the desk socket vanishes from sight, seamlessly blending with the desk surface. This practical and stylish design element by TecLines not only ensures a neat appearance but also delivers a convenient power source for devices like tablets or smartphones. The USB ports and induction charger offer an output voltage of 5V DC/2.1A, enabling rapid charging. TecLines - Intelligent technology by creative minds.

### Key features

Type USB:	USB type A/C (5V / 2.1A / 10.5W)
Number of USB ports:	1 x USB type A, 1 x USB type C
Inductive charging O/P:	5V DC, 5W max.
Voltage:	230V AC
Installation dimensions:	210 x 118 x 72 mm
Degree of protection:	IP20
Power cable length:	1.5 metre with protective contact right-angle plug
Colour:	Black
