

TecLines TKD003

Desktop cable grommet

Description

Comfortable cable management on every desk: Through the practical TecLines TKD003 Cable entry 80x23mm in stainless steel optics are annoying cables of the past. With a simple 80 mm diameter table hole, the cable can be carried with a black brush seal in each table and set in 2 positions.

The locking function of the TKD003 gives the possibility to turn the cover with brush seal and in order to be able to lead cables through the opening from each side in such a flexible way. Typical areas of application are office jobs, on the sales counter to hide cables of the cash register system, in meeting and conference rooms as well as hotel reception.
