

TecLines TKF001

Cable guide for sit-stand desktop 128,5 cm

Description

Ensure a tidy and organized cable management system with the TecLines TKF001 cable guide designed specifically for sit-stand desks. This cable guide enables you to bundle and route various cables from the desk to the floor, keeping them neatly arranged. With a generous length of 1300 mm, the flexible cable channel is perfectly suited for use on adjustable sit-stand desks. By easily adding or removing components and 30 chain links, the cable holder can be precisely adjusted to match the desk height (maximum 1285 mm). Equipped with four chambers, the cable guide comfortably accommodates larger volumes of cables. The cable guide includes a mounting plate with pre-drilled holes, facilitating effortless installation on the underside of the table top. The weighted base plate adds extra stability to the setup. The flexible TecLines cable management system effectively organizes cabling in office or home office environments, especially in situations where desk heights frequently change. Bid farewell to the inconvenience of tripping over randomly hanging cables. Embrace a clutter-free workspace once and for all. TecLines - Intelligent technology by creative minds.
