

TecLines TKF002

Cable guide mesh fabric for sit-stand desk 130 cm

Description

The TecLines TKF002 Mesh Cable Guide is an innovative solution for cable management in sit-stand desks. Made of durable polyester yarn, this protective hose features an open and self-sealing structure. It ensures easy access to cable bundles and lines, simplifying maintenance, repairs, and inspections. Whether installing or removing cables, the conduit can be quickly attached or detached without hassle. It finds versatile applications across industries, from industrial machines to electronics and electrical engineering.

Measuring 1300mm in length, the TecLines cable conduit showcases efficient cable management in action. Its flexible mesh material is especially well-suited for height-adjustable desks. With the continuous zipper, cables can be effortlessly routed, and additional cable outlets can be utilized anywhere along the tube. This braided hose offers reliable protection against dirt and prevents the ingress of animals. Its simple yet effective design creates an organized and tidy environment, ensuring the safety and security of your cables. TecLines - Intelligent technology by creative minds.
