

TecLines TKM004

HDMI 2.0 4K keystone module

Description

Ingeniously simple connection: The HDMI 2.0 4k keystone module offers many improvements for today's HDMI standard. Video transmission of up to 4K / 60 Hz resolution is possible with this TecLines keystone module.

Combination possibilities: All sockets with keystone modules, such as the Bachmann DESK2 sockets, can be equipped with the TecLines HDMI 2.0 Type A connector. The HDMI 2.0 keystone module is suitable in combination with a keystone frame as a building block for custom module-capable devices.

Transmission of video content: The HDMI 2.0 module is ideal for use in offices, conference rooms, meeting rooms or home cinemas.
