

TecLines TKM015 Keystone CAT 7 RJ45 module

Description

The CAT 7 RJ45 Keystone module (TecLines TKM015) can be integrated into a standard custom module frame by simple snap-in mounting to fill the empty space of a configurable power strip / patch panel. The LAN connector with RJ45 jack on the front and back is suitable for fast Ethernet connections with up to 10 Gbit/s according to the Cat.7 standard and has gold-plated contacts that comply with the TIA/EIA 568 standard. Possible locations of use include office workstations, meeting rooms, exhibition halls or hotels.

Key features

Front:	RJ45 jack
Rear:	RJ45 jack
Power class:	CAT.7 (backward compatible with CAT.6, CAT.6A, CAT.5E and other categories)
Data transfer rate:	10 Gbit/s
Dimensions (WxHxD):	29,9 x 14,5 x 19,7 mm
Combinable:	With all Keystone-enabled custom module devices
Material:	Plastic
Color:	Silver
