

TecLines TKS004

Cable guide set 75 cm with table attachment and base plate

Description

TecLines TKS004 are the sustainable alternative to conventional cable guides. The innovative cable management system is made of food-safe, pollutant-free, insulating and 100% recyclable plastic.

TecLines thus creates a cable guiding system that is at the cutting edge of technology and yet exudes a simple design. The TKS004 step-resistant cable management system is available in three attractive colours: black, white and silver. A TKS004 cable snake set includes a table mounting for screwing on, as well as a base plate. The assembly of the TecLines cable snake is very easy with this set. The 24 links of the cable snake result in a length of 75 cm and thus fit all common desks. The cable guide offers space for up to 30 cables and has a tensile strength of at least 5 kg.
