Product data sheet

TecLines TKW001B / TKW001W / TKW001S
Desktop cable duct / tray 310 mm

Description

The TecLines TKW001 desk cable duct/cable tray provides a smart solution to maintain a clean and organized workspace while preventing the frustration of tangled cables. Its spacious opening allows for effortless addition and removal of cables without the need for cumbersome tools. The extra openings in the design serve a dual purpose, enhancing ventilation and simplifying cable access. Installation is quick and straightforward, accomplished with simple screwing. This versatile cable tray not only keeps cables neatly stored but is also well-suited for accommodating narrow 3-way multiple sockets and power supply units. It can be universally used with nearly all standard desk surfaces. Thanks to the cable management system, cables are securely held within the tray, and the sleek, straightforward design seamlessly complements any workspace. It's a valuable addition to any desk. TecLines - Intelligent technology by creative minds.
