

TLH007 2x speaker stand Sonos Era 100 / 300 height-adjustable

Description

The TecLines TLH007 speaker stands are the perfect choice for positioning Sonos Era 100 and Era 300 speakers securely and stylishly, without the need to drill holes into the wall. Specially designed for these models, the 72 cm stands ensure optimal speaker height, delivering an immersive sound experience at ear level. The sleek, discreet design in black or white blends seamlessly into any home decor. With integrated cable management, unsightly wires are neatly concealed, offering a tidy, stylish appearance ideal for any room, including living rooms or offices. TecLines – Intelligent technology by creative minds.
